The Board will be meeting with the Village Engineer to review a priority list of areas in the Village with drainage issues. The Village is entitled to New York State Department of Transportation funding through CHIP's (Consolidated Highway Improvement Program) in the amount of ranging from \$37,000 up to \$70,000. This funding can be used for the repairs of these areas. The Village also anticipated another \$30,000 in funding which would be used to pave the Public Works yard.

Michael Kelapire stated that drainage problems still exist near his home 8 Orchard Drive. Perhaps a percolating drain could be installed. He said there is a flush/drill type drain on Meritoria and School Street.

Trustee Braitto stated that a New York State grant in the amount of \$100,000 will cover the work on the generator and the replacement of the flat roof and old electrical panel in the Firehouse in 2012-13.

The Justice Court received a grant in the amount of \$10,000 to purchase fire proof cabinets.

The Nassau County Police Department Third Precinct did not forward their report for February 2012 in time for the meeting. It will be reported on at the April meeting.

The Mayor opened the meeting to residents.

Michael Guglielmo asked if the court had rendered a decision on the Williston Park water issue. Jeffrey Blinkoff stated that no decision had been rendered to date.

Mr. Guglielmo also stated that Roslyn Road looks horrible. Debris and sand are all over the area. The Clerk was asked to write a letter to the Commissioner of Public Works of Nassau County advising her of the conditions of Roslyn Road and ask for a sweeper to pass through periodically.

Joseph Masters asked if the Village Code mandated that covered garbage cans be used to place household garbage, as the property at 4 Prospect Street, which backs up on Ogden Avenue, places garbage bags, uncontained for pick on Ogden and the animals get into bags, creating a mess.

Carla Strauss asked if information regarding the election can be placed on the web site. Mayor Tanner explained that there is a limitation as to what the Village can put on the web site. The Board had discussed this matter with legal counsel. The Village cannot advise about Village elections, but advises residents to visit the New York State Board of Elections web site.

Michael Guglielmo asked about the events the Teen Safety Committee was considering on Village property. Trustee Parente said to visit the Village web site and view the minutes of the Committee. Some of the suggested events include volleyball games, band competitions, and a farm stand selling organic vegetables one night a week. The ideal of the farm stand served a twofold purpose to bring back history of the Village as well as a sanctioned event to promote safety.

Trustee Braitto stated that the Teen Safety Committee brought many teens together to deal with various issues. The Committee brought the teens and adults together to express concerns of both sides of the issues.

Michael Kelapire asked if the security firm will return when the weather gets warmer.

Carol Bertali felt that the Village should leave the youths alone and see what happens. The Board countered that when vandalism occurred at the train station pavilion, the environment changed to one that was unsafe.

Trustee Braitto stated that if a problem, such as the vandalism exists, or is brought to the attention of the Village, it is obligated to deal with the problem, and not ignore it. The Village does not want to be negligent with respect to these issues.

Mayor Tanner added that this is the reason that the Village lowered the speed limit on Sagamore Avenue to 25 miles per hour in response to complaints of people speeding down the road near the Train Station Pavilion.

Carla Strauss asked if the Village spoke to the School Board about possible patrols at night. Trustee Braitto said the school does not have money in its budget for a patrol program. He noted that Willets Avenue School has patrols by CopState, paid for by Roslyn Heights.

Trustee Braitto stated that he will be meeting with National Grid on March 14th to discuss their request for a road opening on Robbins Drive and Meritoria Drive. The Village was trying to avoid having the road torn up, as it was newly resurfaced. It was hoped that the Village and National Grid could have an agreement to perform the work by bell holes, jack and push plastic pipe into the lines in the right of way, rather than in the road. The work is slated for June to July of 2012.

Trustee DeBenedittis informed those present that artwork from the Willets Road School is on display in the Library. She urged everyone to stop by to see the wonderful work by fifth, six and seventh graders.

A resident asked about the status of 8 Sumter Avenue. Mr. Blinkoff stated that the Village received a summary judgment from the Court. The Village can enter the property to clean up the brush, grass, etc., can remove the unregistered vehicle and enter the house to evaluate the structural integrity of the building. A separate report will be produced for the house and garage. The Village can then bring the house into State Code compliance by the Court order. The Village pays for the repairs, but then the homeowner will be billed and added to the tax bill.

On the motion of Trustee Parente, seconded by Trustee Braitto, there being no further business, the meeting was adjourned at 9:16 pm.
