The Mayor also said the Memorial Day is a time for parades and picnics, it is a somber day and a time to pause for reflection to remember those service men and women who gave their lives fighting in foreign wars.

**VILLAGE CLERK MARIE L. HAUSNER**

The Nassau County Police Department Third Precinct May 2015 had no reports of burglaries or robberies. Traffic tickets served: 12 parking violations and nine moving violations were issued. Accidents and aided: three auto accidents with no auto injuries were reported.

The Village office will be closed on Friday, July 3<sup>rd</sup> in observance of Independence Day.

The Mayor opened the meeting to residents.

Barbara Seixas said that the Village Green never looked better on Memorial Day this year.

Michael Guglielmo thanked whoever was responsible for putting all the meeting dates on the website.

Mr. Guglielmo questioned the new street signs being installed by the Department of Public Works.

Trustee Siciliano stated that the signs are high-density signs which are easier to see at night, and are metalized to resist rust.

Dan McGill brought up the problem of people parking on Sagamore Avenue, blocking driveways during little league games. People have been quite rude when approached about not blocking driveways. He was advised that the police should be called in this circumstance so that they can respond right away and issue tickets to the offenders.

James Daw questioned the status of the water issue with Williston Park.

Mayor Tanner stated that the Village was gearing up to hold a meeting in September when residents return from summer vacations and more people can attend. He stated that Williston Park still has not come off of a figure of \$4.33 per thousand gallons. East Williston had made a counter offer to Williston Park, but they have not heard back from them.

Mr. Daw stated that the East Williston Board had several meetings with Williston Park on this issue, but Williston Park has not backed down on their proposed fee of \$4.33. He felt the time for talk has passed. He said that East Williston is captive to Williston Park and the “have us”, and that they don’t see that East Williston is not a retail consumer, but a wholesale consumer. He felt that putting off drilling our own well cannot wait. East Williston has to bite the bullet.

Trustee Parente stated that East Williston is moving forward, but is also responding to Williston Park when they contact us, so the Board is working on both fronts.

Mr. Daw stated that Mayor Ehrbar has said that East Williston building its own well will not affect his residents. Mr. Daw did not see how this will not affect Williston Park.

Mayor Tanner stated that a permissive referendum could to be voted upon for the bond issue. He said East Williston is also looking into a utility consultant in this matter.

Trustee Vella stated that everyone is passionate about this issue. Some resident want the Village of construct a well to free us from Williston Park. Others simply do not. He said he has strong on opinions on what should be done.

He further stated that the Village will hold one more public meeting and if need be, the issue will be put up to a vote of the residents. The Board has had three very long meetings with Williston Park, but the issue has not gone anywhere.

Mayor Tanner stated that he did not think the Williston Park Board believes East Williston is going ahead with its plans to construct a well.

Mr. Daw agreed that short of “shovels in the dirt”, they will not believe we are moving forward.

Trustee Vella felt at some point, East Williston will hit the point of “no return”.

Mayor Tanner added that moving forward with the construction of the well will require legislation for the abandonment of park land.

John Azzara felt the Board should hold more meetings, not less. He also questioned if the Board had any feedback on his letter a month or so back to the Williston Times. He said there is no credible evidence that the water rate will be reduced by building a well, because of surcharges, etc.

Mayor Tanner responded to Mr. Azzara stating that he continues to mischaracterize the word “surcharge”. Costs of water main repairs, testing of water, etc. are direct costs incurred by East Williston to supply water to residents. The fee we pay to Williston Park is only to purchase water. Williston Park does not supply any further service to East Williston with regard to water.

Mayor Tanner went on to say that he has supplied Mr. Azzara with information regarding bonding for such work. For example, Roslyn issued 3.6% 30 year bond for similar work recently.

Trustee Vella stated that in negotiations with Williston Park, East Williston asked for stability in the cost of water. We were denied that request. By East Williston building its own well, it will be the only way to stabilize the cost of water.

Trustee Parente added that Williston Park did not budge on this issue during negotiations.

Mayor Tanner added that Williston Park was not willing to provide East Williston with a guaranty of a stable cost of water. They do not have a capital plan for their water system, so we are unable to know of any repairs, maintenance or upgrades needed to Williston Park’s infrastructure, of which these costs could be passed along in the cost of water to East Williston.

Mr. Guglielmo said he read in the Williston Times that Williston Park will not raise rates to East Williston unless they raise rates to their own residents.

Trustee Parente said that Williston Park refused to give us a long term guaranty. Only a five year agreement for rates was offered to East Williston.

Trustee Vella stated they wanted a 30 year exclusivity for selling East Williston water.

Mayor Tanner added that the (second) court ruling gave Williston Park a great deal of latitude with regard to rates.

Mr. Guglielmo wanted to know what the long term cost for him will be with regard to his Village taxes. He needed someone to explain this to him.

Ellen Ritz stated that she appreciated the Board for looking to the future on behalf of the Village. She wanted the Village to be independent and take care of ourselves.

Trustee Vella stated that everyone has made very good points in this discussion and are taking everyone's ideas into consideration. The task at hand is to compare apples to apples. The Board needs to look at the long term solutions. In dealing with Williston Park, the (East Williston) Board went from session to session and Williston Park could not agree on what was discussed at each last session

Mayor Tanner said that there is a huge philosophical difference between Mr. Azzara's opinion and that of the East Williston Board of Trustees.

Trustee Vella said during the meetings the Board had come up with many difference scenarios regarding pricing/services, but nothing was consistent or agreed upon.

Trustee Iannone stated that the Board is looking out for the betterment of the community. It is looking for certainty and stability for the future cost of water. Williston Park is looking for a cost of \$4.33 now, but there is no guaranty what that cost will be tomorrow. The Board has to consider long term costs to the Village including whatever upgrades Williston Park may need to their water system. As a community, we need to come to a common ground at some point.

Mr. Guglielmo asked if mediation was an option. Mayor Tanner responded that East Williston offered mediation, but Williston Park did not agree to meet.

Trustee Vella added that this issue cannot be submitted to binding arbitration.

Trustee Parente stated that this is not binding.

Ellen Ritz stated she is involved with an organization recognizing Mental Health Month in October. She wanted to know if red ribbons can be displayed near the library. Mayor Tanner asked Mrs. Ritz to coordinate this with Library Director Susan Corsello.

There being no further business, on the motion of Trustee Parente, seconded by Trustee Siciliano, the meeting was adjourned at 9:02pm.
