

INC. VILLAGE OF EAST WILLISTON

# IMPORTANT WATER NOTICE

## HYDRANT FLUSHING

**SUNDAY APRIL 28<sup>TH</sup> - TUESDAY APRIL 30<sup>TH</sup>**

The Village of East Williston will perform Village-wide, semi-annual fire hydrant flushing starting **Sunday, April 28<sup>th</sup> through Tuesday April 30<sup>th</sup>, from 11:00 pm to 4:00 am. Flushing will take place overnight.** The periodic flushing of hydrants is necessary to ensure that hydrants are working properly, and to release sediment that occurs naturally within a water main system.

You may experience temporary discoloration of water, due to rust and minerals in the water mains.

We apologize for any inconvenience this main flushing may cause, but the procedure is necessary and benefits our entire community.

**IMPORTANT INSTRUCTIONS:** Residents should run the cold-water faucet each morning from the **LOWEST POINT** in the house (basement sink, first floor bathtub or sink) during flushing to detect discoloration. If water is discolored, **DO NOT** run the hot water or do any laundry.
